

Operational policy of ConformiTICs Lab Ltd.

ConformiTICs Lab Ltd. performs its conformity assessment activities in compliance with the requirements of the EN ISO / IEC 17025:2017 standard.

We operate an integrated management system taking into account the requirements of the ISO 9001:2015 and ISO / IEC 17025:2017 standards, as well as the relevant requirements.

We ensure that our employees understand and accept the provisions of the operational policy.

To operate the management system, we provide:

- Continuous improvement of the management system,
- the necessary resources,
- the appropriate number of staff,
- appropriate environmental conditions.

In addition to the satisfaction of our customers, it is also important for us to provide our employees with working conditions and environments that serve their business to the full satisfaction of their business partners and families.

We operate the material, tangible assets and personnel in a quality-centric and efficient manner. We support and require the acquisition and application of up-to-date knowledge. With regular training, we ensure that our employees are prepared to solve the tasks ahead.

Ensuring impartiality and independence in connection with the conformity assessment activities of ConformiTICs Lab is highly important for us. The principles are included in the Declaration of Impartiality.

Based on the operational policy, our quality goals have been defined, for the implementation of which all our employees are responsible.
